

McManus Pubs

Covid-19 Risk Assessment

Name of Pub	The Red Lion
Name of Manager	Lucy Reeves
Date of Initial Assessment	06/07/20
Date of Review	16/05/21

Covid-19 is a new illness that can affect your lungs and airways. It is caused by a virus called Coronavirus. Symptoms can be mild, moderate, severe or fatal.

This is copy of the McManus **Risk Assessment** for dealing with the current Covid-19 situation in the pub estate.

The first step is to look at the Operational Flow instruction and create a plan of the site including pinch points, this will be used to support the social distancing specific controls.

Upon receipt of this document, Management will review the controls required (Column A) and add additional controls to enable the hazard identified to be controlled on an ongoing basis (Column B). There may be some controls in Column B already, if these are not relevant then please delete them. DO NOT delete any controls in Column A as they represented controls which must be addressed. You can enter how this will be done in Column B

The risk assessment will be signed and dated by the Manager and will be reviewed by EPP and the manager when guidance changes, when the manager changes or after any incident which indicates the necessity to review this document.

All staff will be trained in the contents of this risk assessment and attend online COVID course

Details of training and signatures of trainees will be recorded.

Details of review of the risk assessment will be recorded.

Training will take place prior to the pub reopening and any subsequent new starters will be fully trained in this information prior to commencing work at McManus It is recognized that as the understanding of COVID-19 develops revision of this document will be necessary to incorporate appropriate controls.

All staff in all roles must have a telephone interview before returning to work to determine they are fit to return to work. Use the Employee Daily Return to Work Questionnaire and record and retain the information.

Any questions regarding this document can be directed to :

acid or sodium hypochlorite (World Health Organisation - WHO) and are solutions containing greater than 60% alcohol

Generic products are: -
 -Alcohol Based – available as a ready to use solution or a pre-impregnated wipe based on 70% Propyl alcohols. The product should have verified viricidal efficacy under BS EN 14476
 -Peracetic Acid Based (foaming) – an OPC Peracetic Acid disinfectant containing at least 250 ppm PAA at 1% v/v
 -Peracetic Acid – 5 and 15% w/w respectively Peracetic Acid disinfectant concentrates suitable for CIP.
 The products have verified viricidal efficacy under BS EN 14476
 -Sodium Hypochlorite - solutions of Sodium Hypochlorite, typically 14 – 15% delivering 1,000 PPM free Chlorine
 -Hydrogen Peroxide – Only really useable as a stabilised solution often in a ready to use trigger spray based on Hydrogen Peroxide, stabilised with ionic silver (other methods may leave a residue) and a suitable shelf-life at ambient temperatures. The product should have verified viricidal efficacy under BS EN 14476.

The company will purchase appropriate cleaning solutions based on the above WHO recommendation and complaint with BS EN 14476

Safety Data sheets and COSHH Risk assessments to be provided for new chemicals

Cleaning chemicals will also have EN 1276 to ensure effective for bacteria and preferably EN 1650 for yeasts and molds

Foot operated bins to be provided in the toilet and kitchen areas to avoid hand contact.

During working hours there will be a member of staff dedicated to cleaning touch points in the pub to include, door handles (inside and outside), rails, toilet door handles, flushers, switches, chairs and tables after customers leave, PDQ machines, fruit machines/ similar

Entire table top / edges and chairs indoors / outdoors (*delete as appropriate*) are wiped down with sanitiser after each customer leaves before the table is ready for the next customers

In the bar sanitise the all handles, bar fridges, beer taps, wash hand basin, post mix trigger, equipment handles, all hand contact points on an hourly basis and clean as you go

Managers to rota staff members and provide PPE .
